

**Stanmore House School, Lanark - Capital Project – 2016/2017**

<b>Outline of Project</b>	<b>Date this will be undertaken</b>	<b>Outcomes this will deliver for children and young people</b>	<b>Cost of Project (excluding VAT)</b>
Resurface main entrance road to school, main car park and cross junction of car parks with the introduction of additional speed bumps, cleaning out and renewing drains where required.	By January, 2017	There are many pot holes within the car park and in the entrance road to the school, The resurfacing will aid with the safe transportation of the children and young people within the school grounds both in their mini buses and in their wheelchairs.	£15,000
Renewal of the flooring in the main school corridors and in the school dining room.	By January, 2017	The flooring in the main corridors leading to all classes and departments and the flooring in the dining room is very old and worn in many places. New flooring would make the school bright and welcoming for the children and young people and take away any risks associated with worn flooring.	£12,500
			<b>Total £27,500</b> <b>Total £33,000 Inc VAT</b> <b>Ceiling of £32,600</b>
